## TOTAL SCORE SUMMARY

The large circle represents the average of the scale scores included in this profile. Scores are presented in terms of percentiles and indicate where the candidate falls relative to everyone else who has completed this profile. The smaller circle is the percent match against your Star Profile. Review individual scale details to understand strengths and potential areas for improvement.

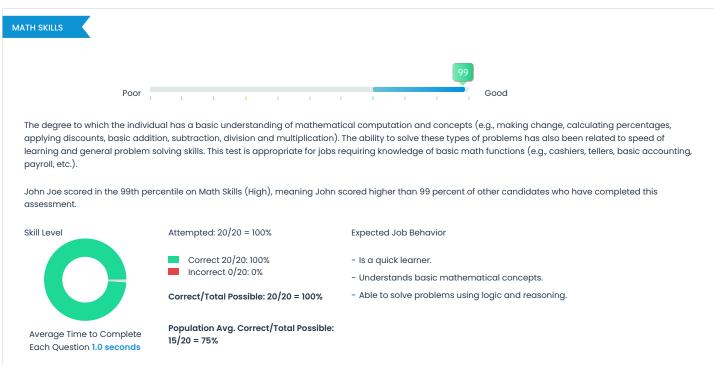

## **SCORE DETAILS**

#### **SCALE SCORE INTERPRETATIONS**

The information that follows offers detailed interpretations for each scale included in this profile. The behavioral scales generate a Strength of Responses graphic. This graphic shows the candidate's response pattern for a particular scale. This illustration is useful for assessing the strength of the candidate's attitudes and behaviors associated with the behavioral dimensions assessed in this profile. The Cognitive scales generate a Skill Level graphic. This graphic shows the percentage of test items the candidate answered correctly compared to those answered incorrectly. This illustration is useful for assessing the degree of skill/knowledge the individual demonstrated.

The degree to which the individual is likely to be dependable, hardworking and conscientious about the quality of their work.

John Joe scored in the 3rd percentile on Reliability (Caution), meaning John scored lower than 97 percent of other candidates who have completed this assessment.

#### **MANAGEMENT STRATEGIES**

This section of the report offers suggestions for developing or managing the candidate based on his/her Profile responses.

- This candidate should be given opportunities to engage in tasks that involve verifying and checking information.
- Expect that they will be very detail oriented and will expect the same from those around them.
- They may be able to train others on how to be more focused and detail oriented on visual tasks.

- This candidate should be given opportunities to problem solve or use their reasoning skills.
- Give them opportunities to coach or work with others on tasks that involve the use of basic mathematical concepts or problem solving.
- Expect that they will understand basic instructions and training and therefore may be able to train others on these concepts.

- Given the lack of emphasis on planning and goal setting by this candidate, working closely with the individual to establish goals and priorities is a must.
- Consistent supervision to ensure behaviors leading to set goals are accomplished is also recommended.
- Consequences for lack of consistency, punctuality and unreliable behaviors should be in place to stress their importance. Rewards and recognition based on what motivates the individual should also take place when they do exhibit conscientious and reliable behaviors.
- The effects of this individual's unreliable behaviors on team members or their department is also of concern, therefore strict enforcement of team/department rules and procedures needs to take place to reduce negative impacts.

## RESPONSIBILITY

Non-Accountable Responsible

- Given the lack of responsible and dependable behaviors often exhibited by this candidate, working closely with the individual to ensure objectives are accomplished is important. Consistency in supervision is critical.
- Consequences for less than reliable behaviors and not taking responsibility for those behaviors should be in place to stress their importance.
- Rewards and recognition based on what motivates the individual should also take place when they exhibit responsible behaviors.
- The effects of this individual's lack of responsibility on those around them should be a concern. Strict enforcement of team/department expectations with respect to responsible behaviors needs to take place to reduce negative impacts.

## RULES COMPLIANCE

Non-Compliant

Compliant

- Avoid or monitor closely job assignments where rules compliance is essential for safety reasons.
- Use their non-conformist nature for jobs where thinking "outside the box" or not according to set policies is needed.
- Monitor closely jobs that involve money handling or confidential information.

## TRUSTWORTHINESS

Suspicious

Trusting

- Limit the amount of confidential information the individual has access to.
- Limit any cash handling tasks or make sure there is supervision when cash is handled.
- Monitor their performance and interactions with team members to minimize negative effects on morale stemming from trust issues.
- Address trust concerns they may have regarding other employees.
- If their trust issues with others are unfounded and are causing discord within the team, consider offering counseling to the individual or placing the candidate in a job requiring little interaction with others.

#### **INTERVIEW GUIDE**

This report includes follow-up interview questions that focus on those areas where further development might be needed. These questions serve as an excellent guide during the hiring process, coaching or developmental efforts to further uncover potentially negative behavioral tendencies
